

A grayscale chest X-ray image showing the lungs and mediastinum. Three green rectangular bounding boxes are overlaid on the image to highlight specific findings. The top box, labeled 'Lymphadenopathy', is located in the upper central region of the thorax, encompassing the mediastinal area. The middle box, labeled 'Airspace opacification', is located in the lower central region, covering the lower lung fields. The bottom box, also labeled 'Airspace opacification', is located in the lower left region, covering the lower lung field and the left costophrenic angle. The labels are in bold black text and are positioned to the left of their respective boxes.
