

Lymphadenopathy

This is a lateral view of a chest X-ray. Two green rectangular boxes are overlaid on the image. The upper box, labeled 'Lymphadenopathy', is positioned over the upper mediastinum and the anterior portion of the lung fields. The lower box, labeled 'Airspace opacification', is positioned over the lower lung fields, extending from the midline towards the left side. The spine is visible on the left, and the diaphragm is at the bottom. The lung fields show varying degrees of opacity, particularly in the areas highlighted by the boxes.

Airspace opacification
