

Lymphadenopathy

This is a lateral chest X-ray. Two green rectangular boxes are drawn on the image. The upper box, labeled 'Lymphadenopathy', is positioned over the upper mediastinum and the anterior portion of the lung fields. The lower box, labeled 'Calcified parenchyma', is positioned over the lower lung fields, specifically the posterior and lateral aspects. The image shows the ribs, spine, and the lung parenchyma with varying degrees of opacity.

Calcified parenchyma
