

A grayscale chest X-ray showing the thoracic cavity. The lungs are visible with some areas of increased opacity. Three bounding boxes are overlaid on the image: a pink box at the top, a yellow box in the middle, and another pink box at the bottom. Each box is accompanied by a text label indicating a specific finding and its associated score.

Lymphadenopathy 0.58

Airspace opacification 0.63

Lymphadenopathy 0.52
