

Calcified parenchyma 0.34

A frontal chest X-ray showing the thoracic cavity. The lungs are visible with some areas of increased opacity. A purple rectangular box highlights a region in the lower left lung field, labeled 'Calcified parenchyma 0.34'. A pink rectangular box highlights a region in the lower right lung field, labeled 'Lymphadenopathy 0.45'. The heart and mediastinum are visible in the center, and the diaphragm is at the bottom.

Lymphadenopathy 0.45
