

A chest X-ray image showing the lungs, heart, and rib cage. Four bounding boxes are overlaid on the image, each representing a different radiological finding. The boxes are colored blue, brown, pink, and blue. The text labels for each box are: 'Airway compression 0.42' (blue), 'Interstitial opacification 0.28' (brown), 'Lymphadenopathy 0.38' (pink), and 'Lymphadenopathy 0.30' (pink). The blue boxes are located in the upper and middle sections of the chest, while the brown box covers the lower section. The pink boxes are located on the left side of the chest.

Airway compression 0.42

Interstitial opacification 0.28

Lymphadenopathy 0.38

Lymphadenopathy 0.30
