

Lymphadenopathy

A chest X-ray showing the thoracic cavity. Two green rectangular boxes are overlaid on the image. The first box, labeled 'Lymphadenopathy', is located in the upper central region, covering the mediastinum and the upper part of the lung fields. The second box, labeled 'Airspace opacification', is located in the lower central region, covering the lower part of the lung fields and the upper part of the abdomen. The background is a grayscale image of the chest, with the ribs and spine visible on the left side.

Airspace opacification
