

Lymphadenopathy

A chest X-ray showing the lungs and mediastinum. Two green rectangular boxes are overlaid on the image. The first box, labeled 'Lymphadenopathy', is located in the upper central region of the chest, encompassing the mediastinal area. The second box, labeled 'Airspace opacification', is located in the lower central region of the chest, encompassing the lower lung fields. The background is a grayscale image of the chest, with the lungs appearing darker and the mediastinum and bony structures appearing lighter.

Airspace opacification
