

Lymphadenopathy 0.53

This is a lateral chest X-ray. A pink rectangular bounding box is positioned in the upper-middle section of the thorax, highlighting a region of increased opacity. A yellow rectangular bounding box is positioned below and slightly to the left of the pink box, highlighting a larger area of increased opacity. The two boxes overlap in the center. The background shows the ribs, spine, and lung fields.

Airspace opacification 0.48
